ROTARY MICROTOME CUT 6062 fully automatic

...Modular system with exceptional precision

The SLEE rotary microtome series 6062 is designed as a modular system. Whether knife-holders or specimen holders - a rational adapter system and different accessories make the use of CUT 6062 child's play.

Rapid knife-change and exchanging of specimen supports is effected without loss of the basic adjustment.

CUT 6062 - specification

The fully motorised unit offers an even greater comfort than manual microtomes whilst retaining all essential features of this series. – Additional features are:

- motor drive
- foot switch
- emergency stop
- operating pad for motorised advance / return
- operating pad for motorised cutting
- individual or series cutting
